RECOMMENDATIONS

As per the University Strategic Plan 2024-2029, and the work plan for the Financial Year (FY), 2025-2026, the University, through the Directorate of the Centre of ICT & E-Learning, is mandated to enhance the University's visibility on seven social media platforms.

This report highlights Maasai Mara university strategic focus area number two: Increase University Visibility and Community Outreach Services, Strategic objective 2.1: To increase the marketing activities and media presence, Strategy : Enhance the University's visibility on social media platforms.

INTRODUCTION

In modern technological world, social media plays a crucial role. It is more than it is for brand awareness. It is also an influence of making and sales, is an authority in building brands, enhances reputation and provides customer services. Thus, Maasai Mara University, by embracing social media, stands to benefit from social media.

Digital marketing can be broadly broken into eight main categories including: Search Engine Optimization, Pay-per-Click, Social Media Marketing, Content Marketing, Email Marketing, Mobile Marketing, Marketing Analytics and Affiliate Marketing .

ACCOUNT RECOVERY – LINKEDIN

Efforts are ongoing to recover and restore access to the institution's LinkedIn account. This will enable the University to re-establish its professional digital presence, strengthen institutional visibility, and enhance engagement with academic, industry, and alumni networks.

VERIFICATION PROCESS – BLUE TICK STATUS

The University is currently undergoing verification processes across its social media platforms to obtain official account authentication (blue tick status).

- **Enhanced Credibility & Trust:** Verified accounts assure audiences of authenticity, reducing the risk of misinformation and impersonation.
- **Expanded Reach:** Verification improves content visibility, allowing the University to reach broader and more relevant audiences.
- **Cross-Platform Growth:** Leveraging integrated tools (e.g., boosting posts across Facebook and Instagram) will support audience expansion and engagement.

IMPROVED SECURITY – ADMIN & CONTROL EMAIL

Measures have been implemented to strengthen account security and administrative control, including:

- Centralization of account access through official institutional emails
- Enhanced password management and access protocols
- Defined roles and permissions for administrators

These improvements aim to safeguard digital assets, ensure continuity, and maintain accountability in the management of the University's online platforms.

THERE IS NEED FOR PAGE AND POST BOOSTING

Boosted posts are ads you create from existing posts on your Facebook Page. Boosting a post can help you get more messages, video views, leads or calls. You may also reach new people who are likely interested in your Page or business, but don't currently follow you.

BY BOOSTING THE POSTS AND PAGES, THE FOLLOWING ARE ENVISIONED IMPACTS:

- Reach more of the right people. Boosting our social media posts would expand our audience beyond people who already like our Pages. With the built-in targeting options, we can reach the people who are most likely to be interested in what you offer.
- Extend our Facebook reach to Instagram. When we boost a Facebook post, we can choose to have the content appear as a boosted post on Instagram as well. This is an easy way to reach even more potential new followers.

For the adverts to be active and successful campaigns running online, there is a financial implication. There is a need to arrange for the same.
